

Document Title:	PROCUREMENT OF AIR FLOWN AND HAND-CARRIED JAPANESE ITEMS (PRODUCE AND FRESH / FROZEN SEAFOODS)
Document Number:	SCD-PSP-PRT-GL-007
Revision Number:	02
Prepared by:	Mary Ann Arao – Manager, Supplier Relationship Management & Quality Management System
Reviewed by:	Mary Flor Bonifacio – <u>Associate Director</u> , Supply Chain Business Support
Approved by :	Ricardo B. Aguas Jr. – Vice President, Supply Chain, Procurement and Strategic Planning
Effectivity Date:	03 July 2024

1.0 PURPOSE:

The purpose of this document is to set out the guidelines and procedures involved in the procurement of air flown and hand-carried 'Japanese Items'. It is essential that guidelines for this type of transaction are established which will satisfy legal and ethical requirements without imposing too heavy and administrative burden on the procurement process and to achieve the following:

- Ensure financial control;
- Ensure operational control;
- Mitigation of risk in terms of Quality; and
- Enhance communication among the affected parties to meet the agreed cost, quality and lead-time such as, but not limited to, Requesting Division, Supplier and Procurement-Food & Beverage (F&B)

2.0 SCOPE AND APPLICABILITY:

This guideline applies solely for the procurement and importation of collectively known as 'Japanese Items' (i.e., fruits, vegetables and fresh/frozen seafood from Toyosu Market, Japan) that are processed within the scope of authority of Supply Chain Division (SCD), particularly, Procurement F&B. This type of procurement is considered as sole sourced (Market) as the Requesting Division have dealt with the Supplier and can comply reliably with their requirements for the three (3) Premium Dining Restaurants, namely, *Kappou Immamura*, *Ginza Nagaoka* and *Yu Lei*.

A Single Sourcing procurement occurs when goods and/or services has been purchased from a particular Supplier, usually to ensure compatibility with existing goods and/or services. A sole or Single Sourcing purchase must meet any one of the following criteria:

2.1 Waiver of Bid is a request to purchase goods and/or services without the competition or bidding. Also known as "Single Sourcing", it is defined as "the practice of using one (1) source among others in a competitive marketplace for justifiable reason such as:

- 2.1.1** Immediate need which the requiring Requesting Division could not have foreseen the required time of normal procurement process

- 2.1.2 Emergency need which property is damaged or considerable cost will be incurred if not repaired immediately
- 2.1.3 Emergency need which property is damaged or considerable cost will be incurred If not repaired immediately
- 2.1.4 Compatibility of existing requirement
- 2.1.5 Only one (1) Supplier is identified and compliant to supply the goods and/or services.

2.2 Single Sourcing decisions are usually made at strategic planning and approved by **Requesting Division** Head. It is often opted for with purpose of ensuring **Requesting Division's** objectives on but not limited to cost, quality, availability and in consideration to the supply market dynamics, as placing all purchasing requirements with only one (1) Supplier. Some pre-requisites of a Single Sourcing decision include the following:

- 2.2.1 Successful past engagement with the Supplier
- 2.2.2 Ongoing long-term relationship with the Supplier
- 2.2.3 Supplier can offer unique or outstanding quality
- 2.2.4 Order is small and not worth dividing
- 2.2.5 Original Equipment Manufacturer (OEM) or Exclusive Distributor
- 2.2.6 Brand or Quality specific preferences by **Requesting Division**

3.0 DEFINITION OF TERMS:

3.1 Bid Tabulation is used by Procurement to comprehensively compare bid/s from Supplier/s and recommend the best option to the **Requesting Division**.

3.2 Delivery Duty Paid (DDP) in Incoterms DDP, the seller fulfills his obligation to deliver when the goods have been available at the named place in the country of importation. The seller has to bear the risks and costs including freight, insurance, duties, taxes, and other charges of delivering goods thereto, cleared for importation.

3.3 Delivery Receipt (DR) a document that is typically signed by the receiver of a shipment to indicate that they have in fact received the item being shipped and have taken possession of it. Most businesses that transport valuable items via mail or parcel post will require the completion of assigned delivery receipt to make sure that the goods were actually received by the intended recipient.

3.4 Market List includes all ingredients, such as fruits, vegetables and fresh and frozen seafood, collectively known as, 'Japanese Items'.

3.5 Payment Term provide clear details about the expected payment on a sale. Often, payment terms are included on Sales Invoice and specify how much the buyer has to make payment on the purchase.

3.6 Purchase Order (PO) document issued by the Company to its selected/awarded supplier for the supply of required goods and/or services indicating the full breakdown of the purchase to be made and all other commercial terms and specifications / scope of work.

3.6 Purchase Requisition (PR) is a document raised on RedRock used to initiate the purchasing of goods and/or services. It is originated by the **Requesting Division** requiring the goods and/or services and typically contains the description and quantity of the goods or services to be procured, required delivery date, cost center and the amount of money that the is authorized to spend for the goods and/or services (Ringi). A purchase requisition is not a purchase order and therefore should never be used to purchase goods or services or be used as an authorization to

pay an invoice from a supplier or service provider.

3.7 Quotation is the relatively straightforward exercise of seeking a price and delivery time for goods or services specified which may be in written or verbal (thru phone) form.

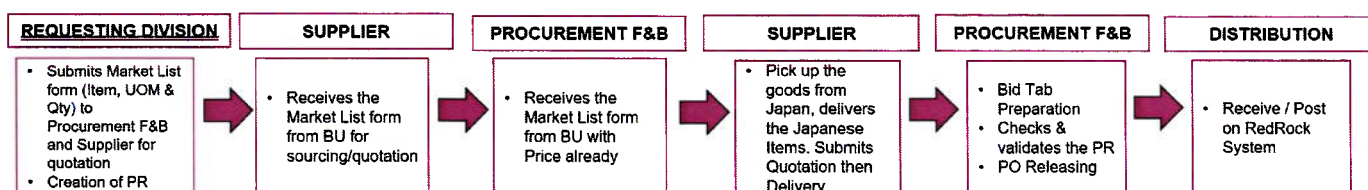

3.8 Request for Quotation (RFQ) is an invitation to Suppliers to bid for a defined product or service, through simple quotations and/or cost proposals.

3.9 Sales Invoice an essential and common document used by all kinds of companies. Companies use sales invoice to inform customers of the amount they owe in exchange for goods or services that were sold. As sales invoice should include which items the customer purchased, how many of the items were purchased any discounts received and the total amount owed. Most sales invoices will always include information as to when payment is expected.

3.10 Supplier is an entity that provides goods and services to another organization. This entity is part of the supply chain of business, which may provide the bulk of the value contained within its products. As supplier is usually a manufacturer or a distributor. A distributor buys and transports products and goods from multiple manufacturers/sources and sells them to its customers.

3.11 Toyosu Market is a wholesale market in Tokyo, located in the Toyosu area of the Kōtō ward. There are two markets for seafood, one for general wholesale and one for bidding, and one market for fruits and vegetables, with each in its own building.

4.0 RESPONSIBILITY:

5.0 PROCEDURES:

5.1 Schedule of ordering and delivery of 'Japanese Items' is being done twice a week as follows:

Every Mondays	Every Tuesdays	Every Thursdays	Every Fridays
Submission of Market List form	Shipped via Air and Delivery	Submission of Market List form	Shipped via Air and Delivery

5.2 The Market List form (one for produce and one for fresh/frozen seafood) should contain Item Description, Unit of Measurement (UOM) and Quantity which will be released by **Requesting Division** to Procurement F&B and Supplier. **Refer to Form 1**

5.3 During market day/bidding event in Toyosu Market around midnight, Supplier, **Requesting Division** and Procurement F&B will start to communicate through Line Messaging App. The ingredients on the **Form 1** will be quoted accordingly. The price per item/UOM will be locked in. The Market List with prices, payment terms and other shipping & commercial terms will be the form of "Request for Quote" with the authorized signatory between TRLEI and the Supplier. **Refer to Form 2**

5.4 On the day of the scheduled delivery, Supplier will pick up the items from Toyosu Market and air flown to Manila. The components of cost will include cost of goods, Freight, Customs processing/releasing, Delivery to TRLEI will be for the account of the Supplier (Incoterm: DDP). This is considered like a local purchase.

- 5.5** During the delivery and receiving of 'Japanese Items', Distribution Team and Requesting Division will witness the receiving. Distribution Team will verify the type of commodity (produce or seafood), total quantity of boxes and weight of the total delivery versus **Form 2**. The reference document that will be used during receiving is the Receiving Log Sheet Form (Packing List) (with the list of Premium Dining Restaurants, quantity of boxes, total weight that is duly signed by Requesting Division and Distribution Team). **Refer to Form 3**
- 5.6** An Exemption Approval Form will be prepared and signed by Distribution Team and signed by Requesting Division as the shipment will only be opened at Premium Dining Restaurants. **Refer to Form 4**
- 5.7** Requesting Division will be providing Procurement F&B the copy of **Form 2** used during receiving and they will utilize the same list as the final receiving copy from the Premium Dining Restaurants kitchens, with signatures as confirmation of delivery completion. Actual weight, quantity and items received will be the basis of RFQ and Quotation. Market List form (with Item Description, UOM, quantity and price, signed by Premium Dining Restaurants' representative). **Refer to Form 5**
- 5.8** In case of discrepancy during delivery and receiving (in excess of the agreed tolerance as aligned with the Distribution Guidelines), the following actions can be taken by Requesting Division in coordination with Procurement F&B and the Supplier:
- 5.8.1 If Actual Weight is higher than the Recorded Weight ('weight listed on **Form 2**'), no action to be taken.
 - 5.8.2 If Recorded Weight is higher than the Actual Weight, Requesting Division will advise Distribution Team to open, check and count the quantity against **Form 2**. Requesting Division will coordinate to the Supplier to confirm the items delivered through email and copied Procurement F&B. If Supplier confirmed the incomplete delivery and deemed discrepancy, Procurement F&B will raise a Credit PO with negative value and Supplier will issue a Credit Note.
- 5.9** Upon receipt of Quotation, **refer to Form 6** from the Supplier and other supporting documents, Procurement F&B shall finalize the Bid Tabulation and route for approval within Requesting Division and Supply Chain.
- 5.10** Procurement F&B requests creation of new items and submits the Item Master Request Form (IMRF) to Procurement Systems. If the item is an existing one, proceed to step 5.12.
- 5.10.1 All items must be tagged as Prime Supplier upon creation.**
- 5.11** Procurement Systems Specialist informs the Procurement F&B of the item number created. Procurement F&B shall inform the Requesting Division to raise a PR.
- 5.12** Requesting Division raises PR in RedRock using the item number provided by Procurement F&B.
- 5.12.1 Prices of air flown and hand-carried Japanese items will be entered manually in PR.
 - 5.12.2 Attachment/s of the PR shall include, but not be limited, to the following:
 - 5.12.2.1 Approved Bid Tabulation
 - 5.12.2.2 Market List, etc.
- 5.13** Once the PR is approved, Procurement F&B shall do the necessary review and validation of the inputted price of Requesting Division in the PR. If all is in order, then PR can now be converted into a Purchase Order.
- 5.13.1 The logistics cost agreed upon must be incorporated to the line item.
Computation should be: $\text{Logistics Cost} = \text{Amount per kg} \times \text{Total kg of shipment/delivery}$
 - 5.13.2 Upon approval of PO, Supplier shall be notified on the issued PO.

5.14 The Sales Invoice will be submitted directly to **Distribution Team** by the Supplier the day after the shipment/delivery.

5.15 Upon receipt of the Sales Invoice from the Supplier, **Distribution** Team will post the Delivery Sheet on RedRock

5.16 **Distribution** Team shall submit the following to Cost Management for payment processing according to agreed payment terms:

5.16.1 Approved PO

5.16.2 Sales Invoice

5.16.3 Delivery Receipt

5.17 Hygiene team shall arrange the periodic laboratory test/swab test to be conducted by third party laboratory. Corrective & Preventive Action will be issued depending on the results of the independent tests.

6.0 DOCUMENTATION

6.1 Form 1: Market List Form (with Item Description, UOM, Quantity - submitted to Toyosu Market Suppliers for quotation)

6.2 Form 2: Market List Form (with Item Description, UOM, Quantity and Price) from Supplier

6.3 Form 3: Receiving Log Sheet Form (Packing List) (approved/stamped/signed by **Requesting Division** and Receiving)

6.4 Form 4: Exemption Approval Form (signed by **Distribution** and **Requesting Division**)

6.5 Form 5: Market List form (approved/stamped/signed by the Premium Dining Restaurants' Representative)

6.6 Form 6: Quotation from Supplier
