Document Number:	SCD-PSP-PRT-WI-013
Revision Number:	06
Prepared by:	<u>Bianca Lois Paras – Officer, Supply Chain Data and Analytics</u>
Reviewed by:	Marjorie Legaspi – Assistant Manager, <u>Procurement Systems</u>
Approved by :	<u>Mary Ann Arao – Manager, Supplier Relationship Management and Quality Management Systems</u>
Effectivity Date:	01 May 2024

1.0 REFERENCE GUIDELINE: Source to Procure, SCD-PSP-PRT-OP-001

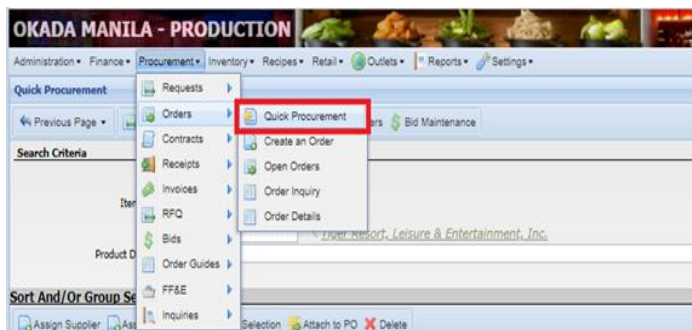

2.0 RESPONSIBILITY:

2.1 Procurement

- 2.1.1 In-charge of the conversion of approved Purchase Requisition (PR) to Purchase Order (PO) based on the approved Bid Tabulation Template.

3.0 PROCEDURE DETAILS:

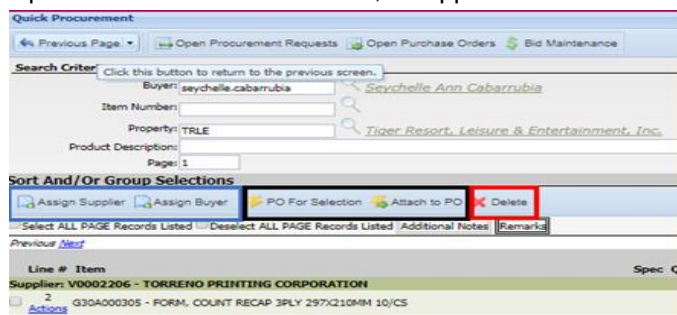

3.1 Procurement to log in the RedRock System, and go to **Procurement>Orders>Quick Procurement**

Note: Quick Procurement Module – is the repository of all approved PR line items.

- Creation of **PO** starts from this module.
- Purchase order planning can be done on this screen as it shows all the line items.

3.2 Update the selected line item/s, as applicable:

- 3.2.1 'Assign Supplier' – this also updates the unit price if there is any bid uploaded in the system for the corresponding Supplier.

3.2.2 'Assign Buyer' – since the Buyer's field is filtered, once **an** item is reassigned to a different Buyer, it will be removed from the initial queue.

3.2.3 'PO for Selection' – this consolidates the selected line items and generate a new PO Number.

3.2.4 'Attach to PO' – this pulls out the line item and adds it to an existing PO number.

3.2.5 'Delete' – this deletes the line item even from the PR Level.

3.3 Update the selected line item/s:

The screenshot displays three main windows in the RedRock System:

- Edit Procurement Line Item Detail:** Shows details for a procurement line item, including Request, Department, Supplier, Buyer, and Price. It includes a 'Cancel' button.
- Current Price Quotes:** Displays a table of current price quotes for a selected item, including columns for Item #, Description, Supplier, Unit, Qty, and Price. It includes a 'Cancel' button.
- Procurement Header Inquiry:** Shows a summary of the procurement header, including Request Number, Internal Reference, Required Date, Status, Bill To Department, Receiving Area, Supplier, Buyer, and Document Totals. It includes a 'Details' tab and a 'Print' button.

Arrows indicate the flow of data and actions between these windows:

- An arrow points from the 'Edit Procurement Line Item Detail' window to the 'Current Price Quotes' window.
- An arrow points from the 'Current Price Quotes' window to the 'Procurement Header Inquiry' window.
- An arrow points from the 'Procurement Header Inquiry' window back to the 'Edit Procurement Line Item Detail' window.

3.4 After creating a PO from Quick Procurement in RedRock System, a **draft PO** gets created.

3.5 Update the draft PO's Critical Header Details:

3.5.1 Bill to Department – refers to the cost center where the purchase will be charged.

Note: PR with CAPEX and OPEX bill to department CANNOT be combined in **one** (1) PO.

3.5.2 Required Date – refers to when the goods are to be delivered to the Property **or when the services will be completed.**

3.5.3 Currency – the base Currency to use is Philippine Peso (Php) and may be adjusted, as applicable.

3.5.4 Receiving Area – to maintain default code: RECV

3.5.5 Internal Reference – use the codes below to specify how PO is created.

3.5.5.1 SRF#: PO was generated from a Sourcing Request Form

3.5.5.2 Re-order: PO was generated from a PR with an existing price in the system

3.5.5.3 Price Update: PO was generated from a PR, where price was updated (higher or lower)

3.5.5.4 Price Extension: PO was generated from a PR, where price from the PR was only extended.

3.5.5.5 Manual: PO that was generated manually by the buyer due **to** any of the following **reasons:**

3.5.5.5.1 Recovery PO

3.5.5.5.2 Credit Note **LPO**

3.5.5.5.3 Any other exceptional cases where Manual PO creation is allowed.

Note: The best practice to replace details is by using the **Search button**.

3.6 Once quantity is finalized on the selected line item/s, Buyer to assess the type of Value Added Tax (VAT) application to use:

3.6.1 Add through Global Terms – this is used if the VAT is to be applied to all the line items in the (PO).

3.6.2 Add through Line Terms – this is used if the VAT is for a specific line item only.

3.7 If to add through Global Terms, Buyer to do the following:

3.7.1 Hit “Global Terms”, and a screen will pop-up.

This tab displays the **Line Items** associated with this Purchase Order. Changes to the lines will be saved along with the header when pressing **Update** or those items and pressing **Delete Selected**

Search:

☐	Line #	Item #	Order Qty	Unit
☐	1	B10A000023	10	CASE

3.7.2 Break-Down basis should be “Line”, then hit Search  button.

Net Amount: **#33,600.00** Open Amount: **#33,600.00**

Total Lines: **1** Open Lines: **1**

Terms Input

Break-Down Basis: ☐ Quantity ☒ **Line** ☐ Prorated

Terms Code: 

Amount: Based On:

Calculation Value:

< >	EDIT	DELETE	Code	Line#	Basis	Gross	Term	Net
edit	delete	IVGD	1	%	#30,000.00	#3,600.00	#33,600.00	

3.8 If to add through Line Terms, Buyer to do the following:

3.8.1 Tick the line item and hit “Line Terms”

3.8.2 Do the steps on Sections 3.7.2 to 3.7.4 to proceed.

Note: For PO with a status of OPN-CMP, Buyer may still add “IVGD” by going to Procurement>Orders>Open Orders then proceed w/ steps on the Sections 3.7 or 3.8 of this document, whichever is applicable.

3.9 Utilize **Quick Notes** and **Remarks** fields to communicate special instructions to **Supplier**, Receiving team, etc.

3.9.1 **Quick Notes** – will be made available to external users, (i.e., Suppliers)

3.9.2 **Remarks**

3.9.2.1 Internal Remarks – not shared externally (i.e., confidential information)

3.9.2.2 External Remarks – will be made available to external users.

Note: If both External Remarks and Quick Notes have content on the PO document, only the External Remarks will show in the PO printout. Quick notes content will only show up in the PO printout if there are no External Remarks entered.

3.10 Review and hit **Line Defaults** button to copy changes done in PO header.

3.10.1 Click ‘Uncheck All’.

3.10.2 Tick ‘Required Date’, ‘Buyer’ and/or ‘Bill to Department’, as applicable. Click ‘Ok’ button. This is to populate header’s information to line item’s data. For multiple BU transaction, do not tick ‘Bill to Department’.

3.10.3 A dialogue box will pop-out, click ‘Yes’.

3.10.4 Hit Update button to save the PO.

Line #	Item #	Order Qty	Unit	Price	Unit	Description	Terms	Ext. Amount
1	E10D000201	1	PIECE	¥181.2200	PC	PIN OF STAPLER GUN, FLAT NARROW STAPLE, 5/16, 1/2 LEG, PK1000, CODE: CT308T, STANLEY	¥1,012.50	¥1,012.50
2	F16G000038	1	EACH	¥2,413.008	KG	LOBSTER, LIVE SPINY JAPANESE APPROX 0.2-3KG/EA	¥754.97	¥754.97
3	G20C000060	1	CASE	¥560.0000	CASE	PAPER, COPY 70GSM A4 5/500/CS	¥754.97	¥754.97

3.11 Check the Unit of Measurement (UOM) and Unit Price

Line #	Item #	Order Qty	Unit	Price	Unit	Description
1	E10D000201	1	PIECE	¥181.2200	PC	PIN OF STAPLER GUN, FLAT NARROW STAPLE, 5/16, 1/2 LEG, PK1000, CODE: CT308T, STANLEY
2	F16G000038	1	EACH	¥2,413.008	KG	LOBSTER, LIVE SPINY JAPANESE APPROX 0.2-3KG/EA
3	G20C000060	1	CASE	¥560.0000	CASE	PAPER, COPY 70GSM A4 5/500/CS

Note: For items with catch-weight variance (typically on food), Unit Price will be based on the average weight. Actual price will be charged to cost center based on actual weight received. In the example above, 1 whole lobster has an approximate price of Php 2,413.008

3.12 Once all the necessary fields in the PO have been completely filled out, hit **Process & Finalize** button.

Line #	Item #	Order Qty	Unit	Price	Unit	Description	Terms	Ext. Amount
1	E10D000201	1	PIECE	¥181.2200	PC	PIN OF STAPLER GUN, FLAT NARROW STAPLE, 5/16, 1/2 LEG, PK1000, CODE: CT308T, STANLEY	¥1,012.50	¥1,012.50
2	F16G000038	1	EACH	¥2,413.008	KG	LOBSTER, LIVE SPINY JAPANESE APPROX 0.2-3KG/EA	¥754.97	¥754.97
3	G20C000060	1	CASE	¥560.0000	CASE	PAPER, COPY 70GSM A4 5/500/CS	¥754.97	¥754.97

3.13 After hitting **Process & Finalize** button, a pop-up window will appear. Once all fields are updated, hit **Finalize** to route the transaction for approval.

By default the following buttons are ticked

You can add internal users on this field for them to be copied on system notification email updates

Ensure that email address tick box is ticked and there's a valid email address on the field.

3.14 Check document status of the transaction made.

STANDARD		
INC-INC	(Incomplete-Incomplete)	New transaction, changes not saved.
D-INC	(Deleted-Incomplete)	Document that is not finalized was deleted.
INC-WTG	(Incomplete-Waiting)	Document is pending approval.
D-WTG	(Deleted-Waiting)	Document that was pending approval was deleted.
D-REJ	(Deleted-Rejected)	Disapproved document.
OPN-CMP	(Open-Completed)	Document with complete details that was already approved by approver/s.
INC-CMP	(Incomplete-Completed)	Approved document was edited but user has not yet clicked "Process & Finalize". Status will change to INC-WTG once finalized.
D-CMP	(Deleted-Completed)	Approved document was deleted.
CLS-CMP	(Closed-Completed)	PR, when items have been PO'd. PO, when items in PO have been delivered.

DOCUMENT CREATED BY APPROVER		
INC-NA	(Incomplete-NotApplicable)	Approver raised document but document is incomplete, e.g. no items added yet. Or Approver edited a finalized document.
OPN-NA	(Open-NotApplicable)	Finalized document that was raised by an approver.
D-NA	(Deleted-NotApplicable)	Finalized document raised by an approver has been deleted.
CLS-NA	(Closed-NotApplicable)	PR, when items on a PR raised by an approver has been PO'd. PO, when items on a PO raised by an approver has been delivered.

3.15 Once PO has been approved, notification email will be sent directly to the Supplier.
